ITA: An Individual Training Account (ITA) is an account set up on behalf of an adult to pay for training services. The purpose of the ITA is to give program participants maximum choice in selecting a training program. DOES set the amount ceiling for an ITA at \$4,000 in April 2011. ITAs are funded locally and federally. The above data reflects local funding only.

Earned GED Rate: The agency does not currently have a licensed post-secondary education or training program or vendor offering General Education Diploma (GED), high school diploma or a non-credit bearing certificate or degree at this time.

Completion: The time period covers January 2014 - March 2014. The total number of completions include participants that may have started training in a previous quarter however completed in the current quarter. Additionally, the number of participants enrolled in training could vary from quarter to quarter due to exiters leaving the program.

NOTE: In Quarter 3 and Quarter 4 of Fiscal Year 2014, the Department of Employment Services (DOES) decided to strategically expend all available federal training funds on Individual Training Accounts (ITAs), and to predominantly use Local Funds to support cohort-based training programs, including those found in the Grants and MOUs portion of the Local Adult Training Report.
